Even the best residential sections are dressed up by concrete pavement.

Why Williamsburg Paved Duke of Gloucester Street with Concrete

Williamsburg, Virginia, was settled in 1632. Duke of Gloucester Street, its wide main thoroughfare, was laid out to run from the Capitol to the gates of William and Mary College.

Back in those days, the mud was often so deep that a man was accustomed to mount his horse in order to cross the street.

What a wonderful contrast today.

In 1927 Williamsburg decided to beautify this historical highway by paving it for permanence. Naturally that meant portland cement concrete, the firm, rigid, unyielding pavement with the pleasing, light gray color.

For five years now this concrete pavement has been carrying the heavy through traffic from Richmond to Newport News. It continues in excellent condition without maintenance.

These are some of the reasons why more than 1,000 cities and towns laid concrete streets in 1925.

All of the facts are in our free booklet on "Concrete Streets." Ask for your copy.

BOY'S ATTAINMENT AMAZES SCIENTISTS

Invents Device to Register Transits of Star.

Copenhagen.—Scientists in Denmark are amazed at the attainment of sixteen-year-old Bengt Stroemgreen, son of Prof. Ellis Stroemgreen, director of Copenhagen's astronomical observatory.

This young astronomer has constructed an electrical apparatus which automatically registers the movements of the stars, thus saving astronomers long watching through the telescope.

By the invention the human eye is replaced by a photo-electric cell connected to a telegraphic receiver which measures the time of transit of the stars across the meridian.

Young Stroemgren, who only recently left school, is now studying mathematics and astronomy at Copenhagen university. His father, however, has insisted on his continuing his studies for the sake of the companionship of boys of his own age. When only fourteen years of age Bengt astonished the astronomical world by writing a technical article on an astronomical problem.

ISN'T HE A BEAUTY?

Alton J. Maybee of Kalamazoo, Mich., has been voted the handsomest senior at Columbia university, but he is not proud of the distinction, and declares that the man who "accuses" him of being this will be "socked." Maybee is the leader of the university glee club.

Twenty Years Longer Life Seen in Half Century

New York.—Twenty years can be added to the average life within the next half century, according to John A. Kingsbury, secretary of the Millbank Memorial fund, which has conducted experiments in health tests in city and rural districts of New York state with the $2,000,000 fund at its disposal for this purpose. The report of the fund shows decrease in deaths and sickness as the result of the tests.

The infant mortality rate in Cattaraugus county has decreased under the tests from 91 per 1,000 births in 1923 to 65 per 1,000 in 1924, while the general death rate for the latter period was 12.6 per 1,000 of population, as against 14.4 in 1923.

The supervisors of the county have been so encouraged by this progress that they have increased the health budget from $10,000 to $50,000. Some improvement also has been noted in Syracuse.

Costly Realty

New York.—The world's costliest realty site has been sold again. It has 29 feet frontage on Broadway and 30 feet on Wall street. A sale in 1905 set a record of $575 a square foot. The undisclosed price in the latest deal, is presumably more than that.

To Make Seeds Safe

Yonkers, N. Y.—Disinfecting of seed that will prevent the carrying of parasites and save millions of dollars is predicted by Cultyon R. Orton, who is experimenting at William Moyee Thompson's institute for plant research.

Grabs Caller's Hat; Leaves Own Home

Berlin.—The prize for professional forgetfulness has been awarded the dean of the faculty of philosophy at Leipzig university.

A new professor in accordance with German etiquette, called at the home of the dean and announced his readiness to begin work. He wore a top hat and a prince albert as is customary.

The dean chatted with him for about ten minutes and suddenly rose, took up his hat, bowed and exclaimed:

"Excuse me, sir, for taking up so much of your time." He then left his own home under the delusion that it was he who was paying the visit.

Marvels of the Movies

"Is this a jungle scene?" asked the slightly uncertain individual at a movie. "No," replied his friend. "You are looking at the picture through the fellow on a woman's hat."—University of Iowa Frivol.

WILD DUCKS HIDE OUT ON HUNTERS

Can't Be Found When They Are Sought in Arkansas.

Little Rock, Ark.—Southeastern Arkansas, for many years a paradise of duck hunters, this season produced poor hunting despite the fact that there are millions of the green-headed water fowl.

Whether the weather is responsible for conditions, or the ducks have gained through experience of aged birds passed on to the younger generations, sportsmen are unable to tell. Officials, however, blame the weather.

For ducks there are, literally by the million, but not where the hunters are prone to hunt. They are in the less frequented lakes and the open rivers of the rice country.

Early in the season ducks were so plentiful hunters found no trouble filling their legal bags, and rice farmers appealed to the state game and fish commission and the migratory bird authorities that the bag limit be lifted.

The hunters had hardly arrived when the water fowl disappeared. The weather had turned warm again. Then came word that duck hunting in Illinois, Wisconsin and other northern states was better than in years. The hunters pat away their guns and prepared to wait for colder weather.

Cold weather came. The ducks returned. Hunters again put out for the rice fields. But when they arrived the ducks had disappeared except in small numbers.

Guy H. Jones, secretary of the Arkansas game and fish commission, made a trip to the district to look over the situation. In several of the remote lakes he found four millions of the birds, he later said.

The official attributed the movements of the birds to the fact that when the weather turned cold enough to drive the water fowl out of the more northern states, it struck southern Arkansas hard enough to freeze the shallower waters in and about the rice fields. This, he said, had driven them into the open waters of the rivers and lakes.

Give 150-Year-Old Turk Job to Save His Life

Constantinople.—The famous old Turk, Zero Agha, who claims that he is one hundred and fifty years make him the oldest man in the world, is to be honored, and incidentally, saved from starvation by the city of Constantinople.

The aged man has been unable for the last year or two to carry on his life-long trade as bamal. The bamals are the human delivery wagons of Turkey, and it is a common thing to see one of these porters, bent nearly double, plodding wearily along the street with a piano or bedstead or dining-room table on his back. As Zero Agha has grown somewhat too old for this herculean occupation he has found it difficult to supply himself with the bread and cheese of existence, for the pensions which he receives from the Association of Hamals is anything but large.

Now the prefect of Constantinople, Zekeriya Sertel, has come to the door-keeper for the municipal council. Therefore he will now have not only bread and cheese aplenty, a suite of rooms and a warm place to sit in, but a feeling of importance befitting the dignity of his years.

Heat Mines Prepared to Destroy Icebergs

Montreal, Can.—Prof. Howard T. Barnes of the physics department of McGill university, whose assertion that it is possible to free the north Atlantic of icebergs and keep the St. Lawrence river open for navigation the entire year by the widely distributed use of explosives, will leave for Greenland in June to study the effects of "heat mines" upon icebergs, attempting to break them up at their source. He will take several tons of chemicals to Greenland for this work.

End of Home Life in Fifty Years Seen

Liverpool. — That 50 years hence home life will have disappeared and people will virtually live in restaurants and hotels, is the prediction of Prof. A. M. Low, well known as a scientist. The professor prophesies that in 1978 present-day types of ships will be replaced by giant hydroplanes which will skim along the surface of the water at tremendous speed. Passengers wishing to cross the Atlantic will use airplanes and keep in touch with their homes by wireless.

Regarding clothes, the professor is of the belief that 50 years from now cotton, silk and wool textiles will be replaced by much cheaper and more practical forms of vegetable fiber. The wardrobes of women will not be so large as now "because no woman, being by that time the most civilized, will not be swayed by every passing wave of fashion."

Professor Low also envisages an era of ugly factories built underground. There will be no more chimneys belching forth smoke, and factory hands will be more polished and better educated as all the rough work will then will be done by machinery.

TIGHT FEELING

Stomach Troubles Relieved by the Aid of Black-Draught.

Telling how he obtained relief from very disagreeable symptoms of stomach trouble, Mr. Charles T. Wintz, of R. F. D. 4, Huntington, W. Va., made the following statement:

"I began taking Black-Draught about fifteen years ago. I would have spells of stomach that just pressed me down and I would get breath, and I would have all kinds of feeling. My head would ache and I was in a very bad fix.

"I had tried remedies that didn't seem to do me any good. I saw Black-Draught advertised and sent for it.

"After taking a few doses, I knew it was helping me. It seemed to break up the spells and the tight bloated feeling disappeared, and I was like a new man. I would not be without Black-Draught. I can eat anything I want to. If I get dizziness in the head, Black-Draught relieves it."

Sold everywhere, 25c. C-26a

(©, 1926, Western Newspaper Union.)

Lesson for March 14

THE LAST WORDS OF JESUS WITH HIS DISCIPLES

LESSON TEXT—John 14:1-16:33.
GOLDEN TEXT—"I am the way, the truth and the life."—John 14:6.
PRIMARY TOPIC—Jesus Tells of the Heavenly Home.
JUNIOR TOPIC—Wonderful Promises of Jesus.
INTERMEDIATE AND SENIOR TOPIC—Christ's Farewell Counsels and Comfort.
YOUNG PEOPLE AND ADULT TOPIC—Christ's Last Words With His Disciples.

The hopes of the disciples were utterly shattered when Jesus told them about the cross. He had told them that He was going away and they could not follow Him. Their hearts were flooded with grief. He consoled them by—

I. Pointing to the Reunion in the Father's House (vv. 1-5).

1. He Asked Them to Trust in Him Even as God (v. 1).

Faith in the God man Christ Jesus will steady the heart no matter how intense the grief nor how great the sorrow.

2. He Informed Them That He Was Going to the Father's House in Heaven to Prepare a Home for Them (v. 2).

He assured them that there was abundant room for all. Heaven is an eternal dwelling place. Only those can enter who have made the necessary preparation here.

3. He Assured Them That He Would Come Again and Escort Them to Heaven (v. 3).

Jesus will not wait for His own to come to Him but will come and call forth from the grave those who have died and transform living believers and take them all to be with Himself in the heavenly home forever more.

II. Revealing the Way to the Father's House (vv. 4-11).

Jesus informed the disciples that they knew the place and the way to which He was going. To this Thomas interposed a demur, in answer to which Christ asserts that He is—

1. The Way to God (v. 6).

He is more than a mere guide or teacher; He is the way itself. He is the door of the sheep fold; yea, the very entrance to the tree of life.

2. The Truth (v. 6).

He is not merely the teacher, but the Truth incarnate. In His incarnation, the spiritual and material were united. Therefore, every line of truth, whether spiritual or material converges in Him. No one can ever have the real truth about anything who does not have Christ. In Him especially we have the truth about God. To pretend to know God while at the same time rejecting Jesus Christ is utter folly. Only as Christ reveals God can man know Him (John 1:18).

3. The Life (v. 6).

Christ is not merely the giver of life, but He is the essence of life. Only those who receive Christ have life in the true sense. This is a truth which cannot be arrived at by intellectual processes. It is a mystery which can only be penetrated by faith.

III. Assuring Them That His Work Was to Continue (vv. 12-14).

Jesus' going away was not to end the work which He had begun. This no doubt means that through the ministry of the spirit-filled disciples the work which He had begun would assume larger proportions. After the Day of Pentecost the Gospel took a much wider range. During His ministry the message was confined to the Jews, while under the ministry of the disciples it was only limited by the world itself. The disciples' ministry was ushered in by the conversion of three thousand in one day.

IV. Promises and Another Comforter (vv. 15-17).

The word "comforter" means literally one called to the side of another to give help, protection and assistance. This comforter was the Holy Spirit. Jesus was the comforter while here in the body. The Holy Spirit was to be another comforter.

V. Assuring Them of His Return to Them (vv. 18-24).

Although Christ went away He did not leave His disciples as orphans. He is spiritually present with them always. The Father and the Son make their abode with the disciples who love and obey Jesus Christ.

VI. Assuring Them That the Holy Spirit Would Aid Them in Remembering and Understanding His Words (vv. 25, 26).

This the Holy Spirit does by illuminating the minds of the disciples.

VII. Giving the Legacy of His Peace (vv. 27-31).

By His peace is meant the serenity of soul which one enjoys who knows that his sins are forgiven.

Dependent Upon God

All men, whether they know it or not, are unscientifically dependent upon God, else no man could live one day. The religious man is one who is aware of that truth, and who seeks by active choice and will to know and do the will of Him in whose great hand he stands.—Joseph Fort Newton.

Unkind Language

Unkind language is sure to produce the fruits of unkindness, that is, suffering in the hearts of others.

Let us do your next printing
TIMES-VIRGINIAN

VERA

We are glad the ground hog's regime is about concluded for this year. It has been just one cold spell after another, ever since his advent and return to seclusion on Feb. 2nd.

Some of the farmers have put the muslin on their plant beds, some are thinking about it, and others just planting their seed—All are preparing to raise another crop of the seductive weed.

One of our progressive farmers killed a pig last week 180 days old, and it weighed 182 lbs., a gain of more than a lb. a day from birth:—"Pretty good I calls it."

Quite a number of cases of measles are reported in this section, also a great many cases of "flu."

We regret to note that David Garrette remains quite sick.

Mrs. J. W. Carter is reported quite sick. We hope soon to hear of her ultimate recovery.

Mrs. Lou Ferguson is reported not so well. This brave little woman is bearing her sufferings with christian fortitude

Miss Jemima Turner is reported seriously ill. She is another brave sufferer who has been a helpless invalid for two years or more.

Messrs. Milton and Percy Reynolds are visiting friends in Richmond.

Mr. H. W. Kinney is visiting relatives at Miami, and Palm Beach, Fla., and doing a little fishing on the side.

Mr. and Mrs. Will Akers, and child, and Mr. and Mrs. Charles Wallace and children, of Gladstone, visited the home-folks here last week.

Mr. Alfred Nuttycomb an employee of the C. & O., formerly of Gladstone, but now of Richmond, visited his home people last week.

News was received here last week of the tragic death of former Hearn Griffin at Pasadena, California. This young man was an officer and was killed while on duty by a "bootlegger," whom he had arrested and was taking to jail. He was the only nephew of Miss Mayme Hearn who has visited here and has many friends in this section. Miss Hearn has the deep sympaty of her many friends here.

"For as in Adam all die' so also in Christ shall all be made alive."

The St. Petersburg (Fla.,) News' says: "Those who would live to a ripe old age should avoid a rotten youth." Pretty good advice.

STAPLETON

We are glad to see the roads improving.

Mr. Ashby Martin gave a "Rook" party last Wednesday night.

Mrs. Gibb Martin gave a "Rook" party in honor of Miss Louise Drinkard who spent the week-end with her.

Miss Myrtle Smith spent the week-end at Mrs. Irby Wheeler's.

Misses Vivian Clarke, Eunice Martin, and Mrs. T. M. Martin, spent Saturday at Mrs. Garland Crews.

OAKVILLE

There has been many cases of "flu" in this community which has caused many absences from school.

As both president and secretary were absent on account of sickness, the Community League did not hold their regular meeting last Maven 3rd.

Miss Edith Martin, of Farmville State Teacher's College spent the week-end at her home here.

The B. Y. P. U. of Red Oak Baptist Church will have a contest between the boys and girls, March 14th, at 7:30 p. m. The subject is, "Barnabas." Come and hear about Barnabas from both boys and girls.

There will be regular preaching services at Red Oak, Sunday afternoon, March 14, at 3 p. m.

AN ORDINANCE

Be it Ordained by the Town Council of the Town of Appomattox, Virginia that an advertisement be published in The Times-Virginian, a newspaper published in the Town of Appomattox, once a week for four consecutive weeks, inviting bids for franchise to be granted in and by the following ordinance:

An ordinance granted to

, a franchise to construct, erect and operate electric poles, wires and other appliances, in, upon, over, along and under the streets, alleys and public places of the Town of Appomattox, for the purpose of supplying electric light, heat and power.

Be it Ordained by the Council of Appomattox, that a franchise is hereby granted to

its successors and assigns. The said is hereby authorized to run wires, cables and other conductors in, upon, over along and under all streets, alley, and other public places in the Town of Appomattox, Virginia, to erect poles and other suitable structures and appliances therein upon, over and along and under streets, alleys and public places of said town, and to make suitable connections thereto, and to supply electric current, light, heat and power upon such terms and at such rates and charges as may, from time to time, be prescribed or authorized by the State Corporation Commission of Virginia, the location of said poles, structures and other appliances to be subject to the approval of the Council of said Town of Appomattox, Virginia, or such of its Committees as may be designated to approve location for the same.

The rights and privileges hereby granted are subject to the following conditions, limitations and restrictions, that is to say:

1. The construction and material to be used, and the work to be done under this ordinance, shall be such as is used or done by similar Companies doing a similar business in towns of substantially the same size as Appomattox. The location in laying of all pipes and conduits and the placing of wires therein, and the erection and location of all posts, poles, fixtures and other structures to be done under the supervision and subject to the approval of the Committee on Streets of the Council of Appomattox, and when plans showing the location of such conduits, pipes, posts and poles and structures aforesaid shall have been submitted to and approved by said Committee on Streets, the same shall be effective and approved by said Committee on Streets, the same shall be effective and binding to the same extent as if they were set out fully and at length in this ordinance; provided, however, that said posts and poles shall be neat, symmetrical and well dressed, and that all work done under this ordinance, shall be done in such manner as not to interfere with or impede the free and proper use of said streets by the public, or unnecessarily obstruct the travel therein.

2. The privileges herein granted shall continue for a period of ten years from the date of the approval of this ordiance.

3. This ordinance and the rights and privileges herein granted and conferred shall not become effective unless and until the grantee shall file with the Clerk of the Town Council, its written acceptance thereof, in forms satisfactory to the town attorney and shall have entered into a bond in the sum of $50.00 with security satisfactory to the Council of the Town of Appomattox, conditioned to the effect that the said grantee will construct and maintain the plant or plants provided for and reasonably necessary for the proper exercise of the rights and privileges granted in and by this ordinance, and will maintain the same in good order throughout the term of this grant, and will comply in all respects with the terms conditions and provisions of this ordinance.

This ordinance shall be in force from its passage.

Be it Ordained, that bids in writing for the franchise, privileges and rights proposed to be granted by the above authority be delivered on the 16 day of March, 1926, at 8 o'clock p. m., to the Hon. J. W. Cawthon, Jr., Mayor and Presiding Officer, at his office in the Town of Appomattox; that the Council of the Town of Appomattox reserves the right to reject any and all bids and to reject a high bid, and grant such franchise, rights and privileges to a lower bidder as authorized by law, or to advertise for further bids as provided by law.

By order of Council of the Town of Appomattox.
Teste: W. W. SCOTT, Clerk.
